

# Art at Nakhchivan State University

The Nakhchivan State University (NSU) is not merely a science center, but it is also an art cradle. Creative mind, artistic taste, and the formation of national culture hold a privileged place here. In different faculties and departments, artistic abilities are trained in music, drawing, sculpture, and dancing. The interpenetration of theoretical knowledge and applied art forms the foundation for art education at NSU.

# MUSIC

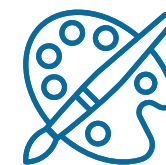

The music art at NSU is built on the basis of national and classical traditions. Students of the Music Department receive professional training in folk music, singing performance, playing instruments, and theory. Azerbaijani mugham, songs, and works of modern composers are studied in detail. Students participate in regular concerts in the concert hall of the university and in city events, presenting their abilities. The pedagogical staff includes famous musicians who contributed in a great way to the development of Azerbaijani music culture.

# PAINTING

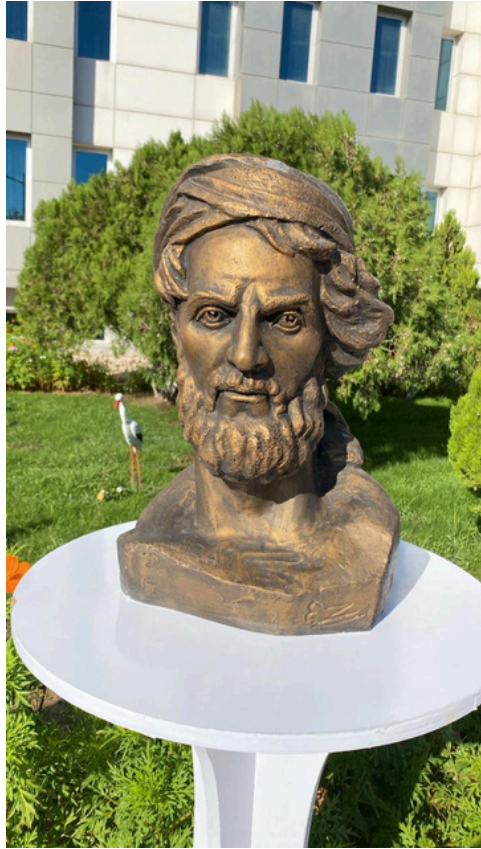

The NSU painting research is a union of science and art. In the courses of fine arts and drawing, students learn the practical aspects of color, shape, composition, and light-shadow relationship. Student and instructor paintings are regularly displayed in the university exhibition halls in solo and group exhibitions. The Painting Department is a platform for young artists to explore in both traditional and modern styles.

# SCULPTURE

Sculpture instruction at NSU stimulates students' interest in three-dimensional art. Students work with clay, stone, metal, and other materials, providing material form to their artistic fantasy. Many student and professor sculptures adorn the courtyard and interior of the university. They are not only aesthetically but also symbolically important, demonstrating Nakhchivan's cultural heritage.

# DANCE

The art of dance is part of university life. The "Nakhchivan" Dance Ensemble and student dance groups perform both traditional and contemporary dances. With their original costumes, music, and choreography, they proudly represent Azerbaijani culture. Dance classes teach the students stage movement and body language, advancing them to a professional level of performance.

# MUSEUM

One of the central institutions for the cultural activity of NSU is the Museum of History and Art of Nakhchivan State University. The museum exhibits ancient art pieces, archaeological finds of Nakhchivan, some examples of folk crafts, and pieces of art created by the students of the university. It functions both as part of the educational process and the process of research, connecting history and creativity.

# CONCERT

Concerts are organized on a regular basis at the university. The student and teacher ensembles perform at the national and international levels. These concerts are not only demonstrations of musical aptitude but also reflections of cultural integration. Works of Azerbaijani composers and world classical pieces are all performed with great mastery.
